

The Safety Game

- Safety • Health
- Regulatory Compliance

"The Safety Game" is the most exciting new classroom safety training product in twenty years! A Jeopardy-style, computer-based training game, The Safety Game involves everyone in the training process. The games are so much fun that employees actually look forward to their training sessions! Employees are divided into teams that compete to obtain the best game score. The trainer acts as the game show "Host", controlling the game board through the computer (the computer image is projected on a wall or screen in the classroom, or hooked up to a large monitor that all employees can see). And when used with the DVD/Video on the same topic, the Safety Games provide a complete safety meeting package ("Show the DVD... Play the Game").
